CONTINUATION OF SF-30

- 1. The purpose of this supplemental agreement is to:
 - A. Correct administrative errors to the contract
 - B. Fully fund CLIN 0016 to \$29,958,047, a net increase of \$1,156,115.
 - C. Fully fund CLIN 0019 to 3,307,780, a net increase of \$115,612.

2. SUMMARY OF CHANGES -- "SUMMARY OF CHANGES FOR THE PAYMENT OFFICE"

A. SF 33 Block 20 – (Pen and ink change):

| Changed From | Changed to | Net Change |
|---------------|---------------|-------------|
| \$133,493,739 | \$134,765,466 | \$1,271,727 |

- B. Part I Schedule, Section B:
 - 1. Page 8a of 65: Change CLIN0015BM to read "ECP L98-159"
 - Page 9 of 65: Change CLIN 0019AA to read 1 Oct 00 thru 28 Feb 01
 - 3. Page 11 of 65:

Change 0024AA to read 1 Oct 01 through 28 Feb 02 Change 0024AB to read 1 Mar 02 through 31 Aug 02 Change 0024AC to read 1 Sep 02 through 30 Sep 02

4. Page 13 of 65:

Change 0029AA to read 1 Oct 02 through 28 Feb 03 Change 0029AB to read 1 Mar 03 through 31 Aug 03 Change 0029 AC to read 1 Sep 03 through 30 Sep 03

5. Page 15 of 65:

Change 0034AA to read 1 Oct 03 through 28 Feb 04 Change 0034AB to read 1 Mar 04 through 31 Aug 04 Change 0034AC to read 1 Sep 04 through 30 Sep 04

- C. Part I Section G
- a. Page 23c of 65, add the following ACRN for FY 01:
- 1) ACRN DF 5713400 301 83LE 253099 010000 555L0 35182F 662400 F62400 PR# F50LGP10110200 = (P00055)

- b. Page 25, paragraph C, AFSPCFARS 5352.232-9500, "Total Sum Allotted" CLINS, amounts, and dates are changed to blanks as with the addition of the A-76 funding the contract is now fully funded to the estimate.
- D. Change page 2, modification P00044, paragraph 1(A)(5) Replace Vacuum Pumps on SPIF Particle Counters to read "(WO# 41673)- \$14,672 (\$13,338 in costs and \$1,334 in award fee).
- E. Change page 2, modification P00048, paragraph 1(A)3 to read "L99-024 \$14,022 (\$12,747 in costs and \$1275 in fixed fee)
- F. Change page 2, modification P00048, paragraph 1(A)2 to read "L99-065 \$10,687 (\$9,715 in costs and \$972 in fixed fee)
- G. Change page 2, modification P00049, paragraph 1(A)3 to read "WO# 47563 \$5,291 (\$4,810 in costs and \$481 in fixed fee)
- H. Change page 2, modification P00049, paragraph 1(A)(9) to read "L98-159 \$68,608 (\$62,371 in costs and \$6,237 in fixed fee)
 - I. Statement of Work:
- 1. Correct Volume 2 Table of Contents, page i to include paragraph 3.1.6 Integrated Resource Management, page 22.
 - 2. Delete existing page xi which is blank and change existing page xii to read page xi.
 - J. Appendix A Spacecraft/Launch Service Systems:
 - 1. Add missing wording that was inadvertently deleted from the Low Voltage paragraph at page A-2.
 - 2. Correct figure A-2-1, Spacecraft Critical Facilities Database, page A-6 to delete references to Generator building, Facility 31716 and Interim Hardware Storage Facilities, Facility 34715 that were inadvertently added back in modification P00047.
 - K.. Appendix J Ordnance Service
 - 1. Delete existing page J-3 which is blank.
 - L. Appendix K Accessible Data Products Lists
 - 1. Add ADP No. 067 requirement for Safety Requirements Document

2. As a result of the above referenced changes, remove the contract pages listed under Column I and insert the revised pages under Column II. (Areas of change are annotated by a vertical line in the right margin)

Column I (Remove) Column II (Insert)

• Low Voltage – UPS, IPS, automatic or manual, back-up diesel generators, where dedicated, and all associated circuits including electrical/motor backup generator's and associated hook-up points. All components from, and including, the low voltage connector of the power transformer includes: the bus bar, all circuits, switch gears, and outlets supplying power throughout the facility, internal/external bulbs, fixtures, and ballast's emergency lighting. Interface point is first facility main disconnect which is 480V or lower (includes the disconnect).

Environmental

- Cleanroom Monitoring, detection, and reporting systems for particulate matter and non-volatile residue; also includes: walls, floor, ceiling, air shower assemblies, all clean-room garments, shoe cleaners, floor vacuums, and floor.
- Fire Protection Suppression and detection. Includes piping, interior alarm wiring, valves, nozzles, software controls, detectors, warning, and all associated hardware. Interface point for a wet system, is cut-off valve prior to the riser and includes the valve.
- HVAC HVAC (Heating, Ventilating, and Air Conditioning) includes: software, air handlers, motors, drive assemblies, chillers, compressors, cooling towers, boilers, humidifier/dehumidifier, air exhaust, purge fans, associated pneumatic and electronic monitor and control components, and all associated support equipment.
- Oxygen Hazard Monitoring Detection and reporting systems for Oxygen depletion.
- **Propellant Vapor Detection** Detection and reporting systems for propellant vapors.

Equipment

- Cold Soak Operation and maintenance of Cold-Soak equipment.
- Facility Control Monitoring Systems Operation and maintenance of all facility control monitoring systems. Includes all cabling, consoles, and associated equipment.
- Online Lightning Monitoring System Sensors, wiring, conduit, portable and installed monitoring devices (workstations). Start date is 1 Oct 00.
- Railroad All railroad tracks and subsurface below tracks, locomotives (Not required for period of 1 Apr 98-30 Sep 00), flat rail cars, rail ties, rail splices, track switches, etc. (Includes rails inside facilities, as well as outdoor.)
- Security Alarm System Operation and maintenance of security alarm system and all associated equipment. (This is not the Advanced Technology Electronic Security System.)
- X-Ray Operation and maintenance of all X-ray equipment.

Fluid and Gas

- **Breathing Air** Breathing Air from, and including, the tube bank connector to, and including, the facility-installed breathing air connector.
- Compressed System Air Compressed System Air from, and including, the compressor intake to, and including, the facility installed connectors.
- Fuel Includes fuel fill, vent, drain, and scrubbers.
- Gaseous CO2 System Includes dewar, piping, dry ice generation, etc.
- Gaseous Helium System Gaseous Helium from, and including, the tube bank connector to, and including, the facility-installed interface.
- Gaseous Nitrogen From and including installed pressure vessels, the tube bank connector or designated control valve to, and including, the facility-installed interface.

ATTACHMENT 7
SUBCONTRACTING PLAN
REVISION 1
DATED 25 JAN 01

D – Small Business Subcontracting Plan

1.0 Introduction

It is Sverdrup's policy to fully support and exceed the Government's policy of providing a maximum number of business opportunities for small business (SB), small disadvantaged business (SDB), and Women-Owned Small Business (WOSB), This plan is structured to ensure compliance FAR 52.219-9.

Initial planning actions included a review of the CCG Launch Operations & Support Contract historical subcontracting and purchasing costs which were used to derive an estimated future spending for the LO&SC. Sverdrup will execute the LO&SC through an autonomous organizational segment - the Cape Canaveral Group – dedicated solely to the LO&SC. As a part of establishing the Cape Canaveral Group, Sverdrup has consummated a primary subcontractor teaming agreement with AJT & Associates, Inc., of Cape Canaveral. AJT is a Hispanic-owned SDB 8(a) company. We have also pre-qualified other subcontractors to support us in accomplishing the LO&SC effort. These include **Redacted**

Redacted

3.0 Description of Services to be Subcontracted

3.1 Labor

AJT & Associates, Inc. – AJT is a SDB who will perform a significant portion of our **Redacted**, as they provide high-tech engineering in support of systems engineering requirements. **Redacted**This is contingent upon AJT remaining a qualified, SDB. The identified services AJT will perform on the LO&SC are:

| System Engineering Support Environmental Support Access Control Operational Training & Badging and Visitor Record Center Service Systems Upgrades & Modifications Modus Operandi. – A SB firm located in Indiatlantic, FL, they will provide critical software support for our information technology systems. | SOW ¶ 3.2.1, 3.2.6 3.1.1.4.3; 3.6.5 3.3.2.4 3.6.3; 3.6.4 3.2.7 3.1.6 |
|---|---|
| Interim Personnel – A WOSB located in Cape Canaveral, FL, they will provide temporary administrative and technical support to our contract on an as-needed basis for surges and specialty needs. | 3.1, 3.2 |
| Catambay Diversified Services, Inc. (CDS) – A SB firm located in Cape Canaveral, FL, they will provide engineering personnel during the baselining documentation effort early in the contract. They are currently providing similar effort to United Space Alliance. Additional tasks, not yet identified, will be outsourced to CDS in Option Periods three-six. These tasks will be identified as part of the Mentor-Protégé Program between Sverdrup and CDS. An additional four equivalent personnel is estimated in this subcontractor plan for these periods. | 3.1, 3.2.2 |

To assist us in identifying SB/SDB/WOSB suppliers, Sverdrup will use the National Minority Supplier Development Council (NMSDC) of which we are a member. Terri Pinkelton, SvT Contract Administrator was selected as the NMSDC 1999 Space Coast Chapter Coordinator of the Year. NMSDC is one of the country's leading business membership organizations that provide minority businesses for procurement and business opportunities. The NMSDC network has over 15,000 minority-owned businesses that it uses to match with member corporations that want to purchase goods and services. Their current Minority Business Enterprise (MBE) in central Florida has over 200 minority businesses, and we will use NMSDC's matching services to identify suppliers. Sverdrup has also joined the Brevard Small Business Advisory Council which further reinforces our commitment to small businesses in the local community and we anticipate this will assist us in achieving our small business goals.

Sverdrup will also use ProNet databases to assist locating vendor sources. Sverdrup intends to institute a policy stating that at least 30% of the purchases made that are between \$2,500 and \$10,000 will be set-aside for small businesses.

- **Central Florida Buildings and Construction Trade Agreement** AJT will use the current agreement Sverdrup has established with the Trades Council for Davis-Bacon personnel.
- Small Business Contractors SB contractors who have been pre-qualified by AJT will be solicited to compete for projects. These subcontracts will be procured based upon competitive RFPs to allow selection based on best overall value. SDBs and WOSBs will be asked to participate in competitive set-aside acquisitions. The contractors listed in Figure D-3 have been employed by or are known to AJT and have solid reputations for quality and reliability.

4.0 Small Business Qualitative Initiatives

Sverdrup's qualitative initiatives in our Small Business Subcontracting Plan are summarized here:

Diversity – Our objective for LO&SC was to obtain a very diversified group of subcontractors performing work across all high-, medium-, and low-tech areas, with a bias to the high-tech end. This goal has been achieved with the selection of:

High Tech

Medium- and Low-Tech

Redacted

Redacted

6.0 Indirect Costs

No Sverdrup indirect or overhead costs are included in these goals.

7.0 Subcontract Administrator

Sverdrup's Cape Canaveral Group Contract Manager, Ken Webb, will be responsible for the overall small business subcontracting program and goals for LO&SC. The Contract Manager, has appointed a primary and alternate Small Business Liaison Officer to ensure appropriate attention

is focused on the SB, SDB, and WOSB subcontracting concerns; duties will include the following:

- Oversee compliance with this plan
- Perform monthly reviews to measure performance against the plan, reporting this status to the LO&SC General Manager, the LO&SC PCO, and SvT's corporate management
- Prepare and submit periodic reports concerning the status of the plan to the LO&SC PCO
- Solicit subcontract proposals and negotiate, prepare, and administer subcontracts
- Maintain records of subcontracting opportunities

8.0 Description of Efforts

Subcontracting Policy – Sverdrup Technology does not maintain a Master Subcontracting Plan. Instead we write individual plans for each of our organizational segments (Groups). The company-wide policy statement is shown in Attachment 1.

Redacted

10.0 Cooperation with Studies and Surveys

Sverdrup will cooperate with all studies and/or surveys that may be required and will submit the following as required:

- Periodic reports/reviews which will allow the Government to evaluate the extent of compliance by the Sverdrup Cape Canaveral Group with this subcontracting plan
- Standard Form 294, "Subcontracting Report for Individual Contracts," and/or Standard Form 295, "Summary Subcontracting Report," to be submitted as required.

11.0 Records and Reporting

Sverdrup Technology maintains central contract files at our corporate headquarters in Tullahoma, Tennessee, which contain all necessary data for Government review of SB, SDB, and WOSB

compliance efforts. These files include source lists with company size data, solicitations sought, contract award data, and other information as required by Federal Acquisition Regulations. These files can be accessed by any organization segment within Sverdrup and are available for Government review.

12.0 Conclusion

Sverdrup's approach to Small Business Subcontracting provides the Government with a roster of qualified subcontractors who will not only bring the best value to the LO&SC, but come from a very diversified background. We have selected Hispanic-American, Woman-Owned, African-American, Asian-American, and small businesses. Subcontractor selection was based on demonstrated past performance and all of the selected subcontractors are experienced in Brevard County. These subcontractors will perform work across a spectrum of high, medium, and low-tech, with the majority of the work targeted for high-tech services.
